

**NOTICE OF AVAILABILITY**  
**DEPARTMENT OF AGRICULTURE**  
**FOREST SERVICE**  
**DEPARTMENT OF THE INTERIOR**  
**BUREAU OF LAND MANAGEMENT**

Notice of Availability (NOA) of Final Environmental Impact Statement (FEIS) for the Quitchupah Creek Road, Sevier and Emery Counties, Utah.

AGENCY: Forest Service, USDA; Bureau of Land Management, USDI  
ACTION: Notice of Availability.

SUMMARY: The USDA Forest Service and USDI Bureau of Land Management have prepared a FEIS to consider a right-of-way application submitted by the Sevier County Special Service District (SSD) to the USFS and the BLM for the construction of the Quitchupah Creek Road, a public road to be utilized primarily as a coal transport route for the SUFCO Mine. The Quitchupah Creek Road FEIS analyzes one Federal action that requires decisions by the responsible officials of the USDA-FS and the USDI-BLM. The Federal action is to consider granting the right-of-way. Copies of the FEIS may be requested from the address below or accessed on line at <http://www.fs.fed.us/r4/fishlake/>.

DATES: Publication of the Environmental Protection Agency (EPA) Notice of Availability and filing of the FEIS in the Federal Register initiates a 30-day review period. Comments will be accepted at the address below. Individual respondents may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses will be made available for public inspection in their entirety. No public meetings have been scheduled.

ADDRESSES: To request copies of the document, add your name to the mailing list, or submit written comments, contact:

QCR EIS, BLM - Richfield Field Office  
150 East 900 North  
Richfield, Utah 84701  
PHONE: (435) 896-1500.

FOR FURTHER INFORMATION CONTACT:  
Rod Lee; Phone (435) 896-1524  
E-Mail: [Rod\\_Lee@blm.gov](mailto:Rod_Lee@blm.gov).

SUPPLEMENTARY INFORMATION: Sevier County SSD has proposed the upgrade and realignment of an existing 9.15 mile road, along Quitchupah Creek, which connects the Acord Lakes Road (Sevier County Road #010) in Convulsion Canyon, Sevier County with SR-10 in Emery County. The land ownership in this corridor is a combination of private, USFS, BLM, and SITLA. The SUFCO Mine, operated by Canyon Fuel Company, LLC was Utah's largest coal producer in 2004, and produced a near-record high of 6.87 million tons. The mine is an important component of local economies and would be the primary use of the proposed road.

All of the build alternatives would conform to the overall guidance of the Fishlake Land and Resource Management Plan (LRMP) and Final EIS, the BLM San Rafael Resource Management Plan (RMP) and Final EIS, and the BLM Forest Planning Unit Management Framework Plan (FPU MFP). This EIS tiers to the decisions of these Land Use Plans, which are available for review at the USFS and BLM offices, both located in Richfield, Utah. No plan amendments would be required for the USFS Fishlake Plan, the BLM San Rafael Plan, or the BLM FPU MFP for the Proposed Action.

Four alternatives were considered in this analysis: 1) No Action (Alternative A), 2) Quitchupah Creek Road (Alternative B), 3) Alternate Junction and Alternate Design (Alternative C), and 4) Water Hollow (Alternative D). The Forest Supervisor for the Fishlake National Forest and the Richfield Field Office Manager for the BLM are responsible officials for the EIS. The responsible officials have identified Alternative D as the Preferred Alternative. They will make their respective decisions regarding the Proposed Actions after considering the comments, responses, and environmental consequences discussed in the EIS. The rationale for each agency decision will be documented in separate Records of Decision (RODs). The RODs will not be signed until 30 days after the EPA Notice of Availability for the FEIS appears in the Federal Register.

Dated: January 27, 2006
